

Noah Chisholm

Brigham, Utah nychisholm1006@gmail.com 661-468-6193 Portfolio: <https://noah-chisholm.github.io/>

Summary Statement:

Computer Science student and Unreal Engine developer focused on real-time simulation, virtual reality systems, AI/navigation, and interactive 3D tools. Experienced with UE5 C++, Blueprint, editor tooling, spatial systems, and hands-on VR hardware setup and troubleshooting. Interested in applying Unreal Engine outside traditional game development, including simulation, training, visualization, and immersive technical applications.

Education:

Associate of Science: Computer Science

April 2024, Weber State University, Ogden UT

Certificate of Proficiency: Programming Essentials

April 2024, Weber State University, Ogden UT

Bachelor of Science: Computer Science

Dec 2026, Weber State University, Ogden UT

Pending

Skills:

- Unreal Engine: Blueprint, C++, Editor Only Modules, Workflow Enhancement Tools, AI, AI Pathing, Data Oriented Programming
- Programming: Debugging, C++, Java, OOP, Algorithms, CMake, Javascript, HTML, Website Hosting, Database hosting, Android Development
- Mathematics: Calculus II, Linear Algebra, Differential Equations, Optimization Problems, Mathematica by Wolfram
- Professional Skills: Quick Learning, Problem-solving, Time Management, Leadership, Customer Service, PC Trouble Shooting, Self-Motivating

Certifications:

- Certificate of Proficiency in Programming
- Certificate of Proficiency in Microsoft Products

Experience:

Independent Unreal Engine Simulation Developer

2020 – Present

Develop UE5 C++/Blueprint real-time systems, including ROTLA and a custom 3D navigation/spatial-mapping system; maintain related projects on GitHub.

Reality Bytes – VR Systems Technician and Manager | Brigham City, Utah

2024 – 2026

Helped launch and support a family-owned VR business as the primary technical operator alongside the owner; set up, calibrated, maintained, and troubleshoot HTC Vive Pro 2 headsets, SteamVR PCs, controllers, base stations, and peripherals.
